

Sprint Backlog, Iteration #7

User Story	Task	Member responsible for the task	Task Assigned To	Estimated Effort per Task (in hours)	Priority (A—E) (A is highest)
As developer I want to finish the graph refactor	Finish the bubble object implementation	Daniël	Daniël	3	B
As developer I want to integrate the graph refactoring with the gui	Integrate the refactored components with the gui	Daniël	Daniël	22	A
As a user, I want to select specimens in the phylogenetic tree and display the selection as a graphical representation	Implement selection of elements and add them to a list	Björn	Björn	6	B
	Implement filtering method for graph of only selected elements.	Hugo	Hugo Bjorn	14	A
	Implement colouring of edges and supernodes	Hugo	Hugo, Bjorn	10	B
	Split the model from the controller	Björn	Björn	9	A
As a user, I want to have checkboxes for SNP and inDel	Implement checkboxes which will enable a highlight of selected feature	Rob	Rob	12	B
As a user, I want the switch between graph view and ribbon view to happen automatically	Implement the ability to switch without tabs	Rob	Rob	10	C
As the user I want to see data about a selected genome in the phylogeny	Implement data vizualization for selected genomes in the phylogeny	Evan	Evan	10	A
	Create a parser for the genome specific data that needs to be gotten	Evan	Evan	5	B
As the client i want to see a presentation and demo every week to keep me up to date with how the project is progressing.	Create, practice, and present the client meeting presentation.	Evan	Evan	3	C
As the client I want to be able to view the Architecture design document and understand the design of the project	Update the Architecture Design Document to be current with the projects architecture	Evan	Evan	4	D

Context Project: Programming Life

Group: PL3
